

Workwear

MAN SIZES

COFRA garments are rugged and durable as well as A comfortable. 11 sizes for jackets and 19 for trousers allow you to find the perfect size. Our sizes comply with the European standards and fit any chest, waist and inside leg sizes. Selecting the right size of trousers is essential in order to position the knee-pad pocket into the right place and to benefit from the ergonomic cut which ensures ease of movement.

The sizes quoted in the charts refer to the user's measures. Garment sizes, instead, are different from those quoted in the charts because they are wider than body measures and they change according to the wearability of each garment.

POLO, T-SHIRT

Firstly find out your chest size and then height

US - UK - EU SIZE CHART		XS	S	M	L	XL	2XL	3XL	4XL
A Chest	cm	82/86	86/94	94/98	98/106	106/110	110/118	118/126	126/130

RIGHT FIT - THE PERFECT SIZE
COFRA has developed the new RIGHT-FIT sizing system, thus making trousers more comfortable to wear. The new RIGHT-FIT system allows to choose SIZES with different leg lengths though maintaining the same waist circumference, and ensures the perfect fitting of trousers to one's own build and the perfect positioning of knee-pad pockets. Moreover, the extension edge allows to further personalize the garment changing its length. For sizing guide to select the correct size of your trousers, see our size chart.

WOMAN SIZES

COFRA garments are rugged and durable as well as comfortable. 10 sizes for jackets and 10 for trousers allow you to find the perfect size. Our sizes comply with the European standards and fit any chest, waist and inside leg sizes. Selecting the right size of trousers is essential in order to position the knee-pad pocket into the right place and to benefit from the ergonomic cut which ensures ease of movement.

The sizes quoted in the charts refer to the user's measures. Garment sizes, instead, are different from those quoted in the charts because they are wider than body measures and they change according to the wearability of each garment.

T-SHIRTS

Firstly find out your chest size, your waist circumference and then height

US - UK - EU SIZES		S	M	L	XL	2XL					

Gloves

To get the maximum comfort with gloves, choosing the right size is essential. The general standard indicates how to determine the size needed: measure the circumference of your hand, as indicated in the chart. One size for each hand measure, all COFRA's gloves are colour coded for size identification, as indicated in the chart.

SIZE	Circumference of the hand (mm)	Hand length (mm)
6 (XS)	152 / 6"	160 / 6,3"
7 (S)	178 / 7"	171 / 6,7"
8 (M)	203 / 8"	182 / 7,2"
9 (L)	229 / 9"	192 / 7,6"
10 (XL)	254 / 10"	204 / 8"
11 (XXL)	279 / 11"	215 / 8,5"

It is possible that the length of gloves conceived for special applications may not be in compliance with the values in the table mentioned here above. To get better and right information make reference to the table mentioned for each product. Moreover, it is possible that glove size does not fit perfectly because hand shape is different from person to person (a wide hand with short fingers can be an example).
